16 February 2018

Dear Will,

Thank you for your recent correspondence regarding the matter of the unpublished results of the 3rd Annual Survey of Liaison Psychiatry in England.

I agree with you that it is important the public has equitable and transparent access to statistics. I am pleased to confirm that Health Education England is the commissioner and owner of the survey and that they will publish the results. They have agreed to send my team a link to the results when published which we will forward on to you. We will continue to monitor the situation to ensure the results are published sooner rather than later.

Yours sincerely

Ed Humpherson
Director General for Regulation
