Alastair McAlpine  
Chief Statistician  
Scottish Government  
(by email)

16 March 2026

Dear Alastair,

**Temporary suspension of classification for outputs based on the Family Resources Survey**

Thank you for your letter outlining the context around the methodological developments to the Family Resources Survey (FRS) and their implications for your forthcoming report on [Poverty and Income Inequality in Scotland](#).

Given the scale and phased nature of the transformation programme, and the sensitivities you highlight for the Scottish estimates, I agree to your request to temporarily suspend the accreditation from the March 2026 Poverty and Income Inequality in Scotland report. As noted in our [regulatory work programme](#), we are planning to undertake a compliance review of DWP's statistics based on the transformed FRS.

I note your intention to label these as official statistics in development while you continue to assess the implications of the new methods, associated uncertainties and the potential for future revisions. We have published [guidance on producing Official Statistics in Development](#) to support producers in communicating changes clearly and transparently.

Thank you again for engaging with us. My team will be happy to discuss the most appropriate timing for a future review of these statistics once the transformation programme has progressed and you are assured that the outputs fully comply with the [Code of Practice for Statistics](#).

Yours sincerely

Ed Humpherson  
Director General for OSR
